Ballpark Bookie in no way takes responsibility for any money lost or gained by the user. What each user does with knowledge obtained from this application is 100% their own unique decision.

Access

To use this application you will be required to have a modern web browser, preferably Google Chrome. To access the application from there you will want to visit www.ballparkbookie.com (placeholder).

Home Page

You be greeted by our home page at first, and this is where you will spend most of your time.

On the left side of the page you will be able to select any baseball team's schedule. Browsing through schedules will help inform what games you want the application to predict for you.

At the center of the page you will be able to select two teams from a drop down list, then you will want to click on the "Calculate" button to get a result.

At the top of the page you will find two buttons labeled “Home” and “Big Predictions”. The “Home” page button will take you to the “Home” page or refresh the page if you are already there. The “Big Prediction” button will act similarly.

Big Predictions

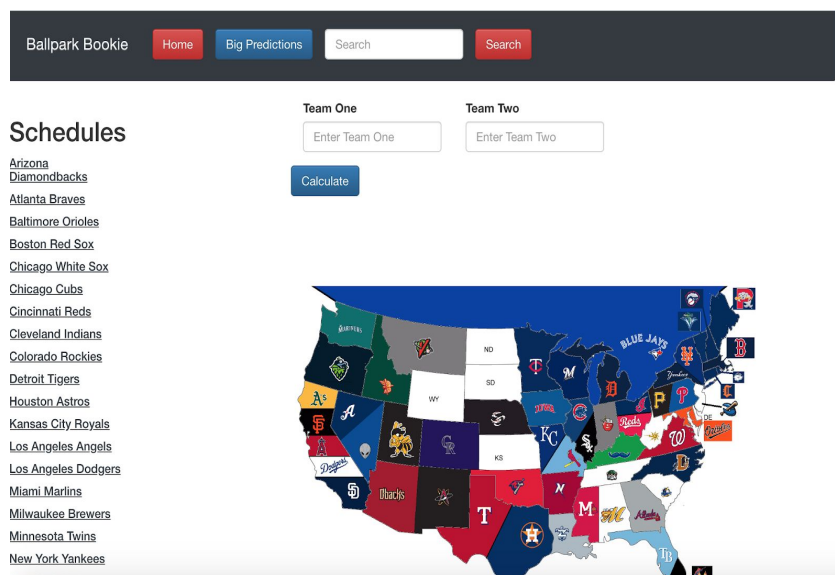

On the left side of the page you will still find links to the schedules, and at the top of the page you will still find the “Home” and “Big Prediction” buttons. Refer to the Home Page section above for more in depth information.

At the center of the page you will find a drop down list that allows you to select a team. After selecting the team, click “Calculate” to see the results of how your team will do throughout the season.
